MUSIC IS IN » THE AIR

The history of this World-Heritage city dates back over 2000 years. During the Perpetual Diet, Regensburg was also the political and cultural center of Europe for 150 years. Emperors, kings, and envoys would all come and go here. And, with what is probably the world's oldest boys' choir, the Regensburg Domspatzen, and the "Codex of St. Emmeram," the city's music history also goes back a long way. It was in Regensburg that the best in their fields would put their skills on show. It is a tradition that has been preserved in this city, where music continues to be given great importance.

Regensburg is a city of music, and the variety it offers is vast. Regional, national, and international stars from all genres regularly perform here. The city of course also has its own musical highlights and "total works of art," such as the royal Schlossfestspiele, with their fantastic atmosphere. And a special sense of magic falls over the city when it plays host to the annual Jazzweekend festival. The many festivals held at the medieval squares and arcade-lined courtyards are not just musical highlights; they're also a feast for the eyes.

Music culture is thriving in the city at every level. Whether it be classical, rock, pop, jazz, world music or folk music, you can find it all in the city's laneways, halls, taverns, and squares. A kaleidoscope of musical splendor that awaits visitors almost all year round, and which invites them to embark on a journey through all genres of music.

CITY OF MUSIC REGENSBURG

Anyone wanting to take a (musical) piece of Regensburg home with them can stock up at one of the record stores or find a new instrument for themselves at one of the violin-makers or piano stores. In Regensburg, music can be proclaimed a lifetime dream right from childhood, with the Domspatzen and the College of Catholic Church Music providing an outstanding range of music courses.

OLD TOWN HALL AND HISTORIC IMPERIAL HALL

The Altes Rathaus (Old Town Hall) has been Regensburg's beating political heart for centuries. A building whose imposing town-hall tower was designed to symbolize the status of the Free Imperial City was constructed in the center of the Old Town in the 13th century. The Gothic extension of the building, with the Reichssaal („Imperial Hall“), originally intended as a dance hall, was built around 1320/1330.

The Old Town Hall's heyday began in 1663, when it served as the exclusive venue for the Perpetual Imperial Diet's sessions for nearly 150 years. Today, the wheelchair-accessible Tourist Information Office is located on the ground floor. The magnificent Imperial Hall directly above, and the „Fragstatt“ former interrogation room in the town hall's basement, can be visited as part of daily tours. Music events and receptions are also held in the Historic Imperial Hall on special occasions. The town-hall concerts and Tage Alter Musik festival, which transform the historic space into a concert hall every year in spring/at Pentecost, make for a unique atmosphere. CENTER FOR YOUTH CULTURE CITY OF REGENSBURG

W1 is both an internationally established concert venue for all sectors of young pop culture, subculture and hip culture, as well as a place where young people can create, learn, and try out music. It is in this spirit that W1 regularly holds concerts that bring national and international bands/artists to Regensburg, where they perform concert evenings together with local musicians. The Center for Youth Culture also

provides opportunities for people to hold their own concerts in cooperation with the venue, thereby not only making its stage available to initiatives and cultural associations, but also actively encouraging young people to test out their skills as concert organizers. W1 was established in 2009 as an institution dedicated to open youth work, based on a need for enabling young people to experience, create, learn, and mix culture. The music section, with concerts, workshops, and much more, is one of many main focuses of the diverse program that spans the full spectrum of youth culture.

THON- DITTMER- PALAIS

An architectural gem and unique music venue can be found at Haidplatz in the western part of the Old Town. Consisting of several patrician houses, the complex of the modern-day „Thon-Dittmer-Palais“, with its classicist façade, provides unique insights into Regensburg’s architectural history. The atmosphere and dazzling acoustics of the historic Renaissance interior courtyard make it one of

the finest and most popular event venues in Regensburg. Spanning an area of some 500 square metres, the interior courtyard has a row-seating capacity of up to 400 patrons. The event season generally runs from May to early October, during which time a large stage is set up in the courtyard, available for all organizers to use. The program is very diverse, ranging from classical and modern concerts, to plays and dance performances, to acrobatics and movie nights, meaning there's something for everyone. As twilight falls, the arcade-lined courtyard is bathed in atmospheric light, enabling audiences to enjoy cozy summer nights to the max in a historic setting.

REGENSBURG THEATER

Regensburg Theater is not just the largest municipal multidisciplinary venue in Bavaria; it's also a central part of cultural life in Regensburg. Its repertoire spans five disciplines, and music plays an important role in each of them. The concert program consists of Philharmonic Orchestra concerts and chamber-music nights, presented by the Regensburg Philharmonic Orchestra, which also accompanies the music theater productions. Most of the concerts are held in the grand Neuhaussaal at Bismarckplatz. The full spectrum of orchestral works are covered, with a particular focus on contemporary music. Concerts for families and

babies are another unique offering that instills a love of concerts into the „next generation of patrons“ from a young age. The music theater is equally diverse: along with great works from the operatic canon, there are also debut performances, rarely played pieces from more recent music history, chamber operas, and operas for young audiences. Musicals are another permanent fixture of the repertoire. The drama, dance, and young theater sectors similarly frequently play host to live singing and instrumental music.

THURN AND TAXIS PALACE

Between 800 and 1810, St. Emmeram's Benedictine Abbey was an imperial monastery renowned across Europe, with a distinguished library and outstanding collection of music materials. Its treasures, which include one of the most important sources of European music history in the form of the „Codex Aureus of St. Emmeram,“ are today stored in Munich. When the secularized monastery—excluding the basilica—became the residence of the Thurn and Taxis dynasty in 1812, the royal family continued the establishment's cultural tradition. Prince Karl Anselm of Thurn and Taxis (1733-1805) even turned the theater and court chapel into one of Germany's finest complexes.

Some 3000 music manuscripts from this time have been preserved in the royal court library. Visitors to St. Emmeram's Palace can visit the

medieval cloister, the crypt chapel, the royal family's grand quarters, the former stables, and the treasury (www.thurnundtaxis.de). The baroque St. Emmeram's Basilica has been a popular concert church since time immemorial, and patrons can experience this side of it for themselves at events such as the annual „Nacht der Musik.“ In 2003, St. Emmeram's great music tradition was revived by the Thurn und Taxis Schlossfestspielen festival, which sees world-famous rock, pop, and classical-music artists give guest performances in the palace's interior courtyard every July. Viennese magazine „Festspiele“ has ranked the event among the „world's best palace festivals.“ (www.schlossfestspiele-regensburg.de)

MUSIC IN CHURCHES

The immense importance of church music is not only demonstrated through the over-1000-year-old tradition of the Regensburger Domspatzen boys' choir, which performs concerts worldwide, but, over the centuries, has also become a major part of both denominations' cultural identities. The many monasteries alone, particularly St. Emmeram's Abbey, were top-class cultural institutions until secularization. The art of Gregorian plainsong is fostered intensively to this day at St. Peter's Cathedral and the Old Chapel. The founding of church choirs in the 19th century also saw a lively folk-music scene develop in the city parishes. The establishment of the Church Music School in

1874 saw Regensburg additionally become one of the most important international training centers for church music. A number of services held in the churches of the Old Town for festive occasions feature elaborate musical repertoires, and concerts are held regularly all year round.

Regensburg's organ scene has also experienced a revival in recent decades as a result of numerous renovations and new constructions. The spectacular, world's largest freely suspended organ in Regensburg Cathedral, the Pope Benedict Organ in the Old Chapel, and the new Bach Organ in the Protestant Holy Trinity Church attract thousands of visitors to the annual organ concert series during the summer months.

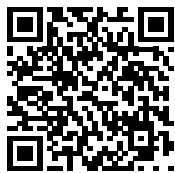

UPPER PALATINATE FOLK MUSIC

» *BAVARIA'S BRINGING THE TUNES...*

Until well into the 20th century, folk music was primarily „utility music“ consumed for entertainment and, in particular, for dancing. Musicians and melodies would often travel back and forth across Europe. And while there were regional particularities, such as the Zwiefachen—beat-shifting dances that have been classified as Intangible Cultural Heritage since 2016—, most of the repertoire consisted of popular operetta melodies, early hits, or similar.

The efforts to foster folk music in the post-war era have raised public awareness of regional music and traditional instrumentation. But folk music is constantly evolving. In recent years, party bands performing predominantly the latest hits and pop music have once again been joined by folk and brass bands for dancing and singalongs at folk festivals like the Regensburger Dult.

UPPER PALATINATE FOLK MUSIC

» **Join in:** Folk music and pub culture go hand in hand. Experience traditional music at Regensburg's beer gardens and many taverns. Together with the Bayerischer Landesverein für Heimatpflege e.V., other districts, and the DEHOGA, the Upper Palatinate regional government recognizes musician-friendly pubs that allow musicians to perform in exchange for drinks and snacks. The publicans further support the musicians and singers by having instruments at the ready on site. This gives newcomers in particular the chance to take their homegrown music to the bigger stage. Anyone can give it a go; there's no pre-requisite for being pitch-perfect at all times.

» **Musicians:** The groups on the folk-music scene are extremely diverse. Many are members of the Oberpfälzer Volksmusikfreunde association, which is active across the Upper Palatinate region with an events calendar, its own CDs and music books, folk-dancing nights, and musician get-togethers. MUSIC

IN BARS, PUBS, CLUBS, & DISCOS

Regensburg has long been one of the cities with the highest concentration of pubs in Germany. Anyone wanting to listen to music in its pubs and clubs can take their pick from any style of electro, pop, or rock music. But the city's clubs also have hard techno covered. And those preferring to dance to mainstream disco sounds or check out hip-hop or indie sounds are equally well catered to in Regensburg. Regensburg's

pubs similarly boast an excellent selection of music, with award-winning DJs regularly on the decks. There's something to suit every taste here. A number of bands have also established themselves at Regensburg's bars, where the local music scene now continues to gather to chat and exchange ideas. But that's far from everything. A selection of bars, pubs, clubs, and discos can be found online, or simply ask a local what their favorite bar is.

REGENSBURG BANDS

Frequently loud, sometimes way-out and experimental, usually dancey, and always exciting—Regensburg’s pop scene is varied and innovative.

From hip-hop to indie, from rock to electro, Regensburg’s bands and musicians think well outside the box and enjoy great success far beyond the city’s borders. Indie bands Some Sprouts, Telquist, and Bruckner delight millions of listeners on Spotify and co., while the Teichmann brothers, electro musicians from

Regensburg, are venerated worldwide for their DJing skills, and Liquid & Maniac even get fans at hip-hop festivals in the north dancing with their rapping in Upper Palatinate dialect. Coupled with this are newcomers like luna Lux, The Komets, Moon Mates, and Riva Leo, who have long been creating a stir nationally. What makes the Regensburg pop scene what it is? People know each other and help each other out. Often, individual musicians will end up displaying their talent in several bands. This has given rise to a community that is open to new things, that gives things a go, and enjoys an ever-growing fanbase. Regensburg sounds new and exciting.

It's the Stradivariuses and genius craftsmen who have made Regensburg famous well beyond its borders as a center for musical instruments. Not only do they all have a profound understanding of their trade, but they are also more than happy to offer advice and pass on their knowledge! And this is equally true for enthusiasts of pieces that have already been set to music. All kinds of sound-recording media, including those of the more unusual variety, can be found in Regensburg.

And Regensburg still has more to offer! Several famous voices originate here, for this city is where vocals are trained and given the opportunity to evolve and thrive. Whether the ultimate goal is professional or merely a hobby is totally up to the individual.

A WALK THROUGH REGENSBURG'S MUSICAL HISTORY

One of the earliest dateable examples of music notation was written in Regensburg around 830. St. Emmeram's Abbey was a leading center for preserving the art of Gregorian chanting. Music of course played a key role in parliamentary magnificence and grandeur, and Regensburg joins Salzburg, Vienna, and Innsbruck as one of the cities north of Alps where operas were first performed. According to Franz Liszt, Regensburg was „the church-music capital of the Catholic world” in the 19th century. Book a guided tour now.
