ST PETER’S CATHEDRAL*
The only Gothic Cathedral in Bavaria is located at the heart of the diocese, and is Regensburg’s best known landmark. Once you are done admiring the impressive facade, you can feel the grandeur of the building when you enter it and see the marvellous light created by the glass windows. The world’s largest hanging organ accompanies the famous boys’ choir Regensburger Domspatzen (“Cathedral Sparrows”) during the mass (10 a.m.) on Sundays and religious holidays.

DOCUMENT LEGIONSLAGERMAUER*
The most impressive remains of the Wall of the Legionary Fort were found in the multi-storey car park in the Dachauplatz, along with the northeast and southeast corners of the former fortress. These are freely accessible sections of the Wall of the Legionary Fort.

BMW PLANT REGENSBURG*
The BMW 3-series cars are built exclusively in Regensburg. Over 1000 vehicles are produced each day. Visit the production halls and the paint-spray line as part of a guided tour through the BMW plant. BMW celebrates its 100 year-anniversary in 2016.

THURN AND TAXIS PALACE*
In the middle of the 18th century, the princess of Thurn and Taxis, founder of the first large-scale postal service in Europe (15th century), turned the former monastery into a magnificent castle-residence. The palace is a must-see and is said to have more rooms than the Buckingham Palace in London. Guided tour only.

DOCUMENT NEUPFARRPLATZ*
Regensburg’s greatest archaeological excavations to this day. The cross-section takes you from the Roman officers’ dwellings through the medieval Jewish quarter with its synagogue to an air-raid shelter from World War II. Guided tour only.

DOCUMENT SCHNUPFTABAKFABRIK (SNUFF FACTORY)*
The former buildings of the Bernard Schnupftabalfabrik (snuff factory) were comprehensively restored after having been vacated. Three large rooms were intentionally preserved in their original condition. Guided tour only.

DOCUMENT ALTES RATHAUS – IMPERIAL ASSEMBLY MUSEUM WITH TORTURE CHAMBER*
Regensburg made history in the Old Town Hall. From 1663 to 1806 the Perpetual Imperial Assembly met here, brought a lot of wealth and power to Regensburg and constituted the beginnings of European Parliamentarism. Visit the imperial assembly hall and the torture chamber in the cellar where persons charged with an offense were “questioned”. Guided tour only.

DOCUMENT NIEDERMÜNSTER
Take an archaeological journey through time in Document Niedermünster located right next to the cathedral. Experience the time period between 179 B.C., when the Roman fortress was built, and the 12th century, when the Romanesque Niedermünster was erected. The 3D-animation will give you a comprehensive idea of the life of Roman soldiers, how the site was changed for civil use and then into a church. See the grave of St Erhard. Guided tour only.

Situated directly in the Old Town of Regensburg at the shore of the river Danube, this state museum will present exhibits reflecting the everyday life of Bavarians during former times. Since the people of Bavaria have been asked to present exhibits, the museum will vary from people to people but up to date, very modern and interactive. There will be guided tours and media-guided exhibitions in English. More information to follow. By the way, did you know that even hundreds of years ago, Regensburg had been the first capital of Bavaria in the 6th century AD?
